

Earth Science Activities for Grades K - 5

When:
September 25, 2010,
9am – 4pm

Where:
NASA ERC - Museum of Aviation,
Warner Robins, GA

Cost:
FREE - Teachers will
receive a \$50 stipend
for attending.

Do you teach Earth Science in Grades K - 5? Would you like more hands-on activities and demonstrations on weather topics, the water cycle, rocks and soils, volcanoes and other geological processes and human impacts on the environment? Then join us for this informative session using NASA educational resources that address the Georgia Performance Standards.

Participants will receive colorful posters and lithographs, educator guides and other Earth Science resources to integrate into their curriculum.

Find out how NASA can come to your school through the Aerospace Education Services Project, how to access resources through the NASA website and how to engage your students in authentic experiences through NASA challenges and competitions.

Presenter:
Clare Swinford,
Coordinator, NASA
Educator Resource
Center, Museum of
Aviation
