

K.I.D.S. CLUB

Kids Interested in Discovering Science

Join the KIDS Club at Georgia Tech!

Who: 2nd- 5th grade students

What: A program designed to enrich and encourage students' knowledge and curiosity for science, technology, engineering and mathematics (STEM) through hands-on activities and explorations.

When: Select Saturdays throughout the school year, starting this fall.

Where: Georgia Tech's campus

Why: The opportunity to gain unique learning experiences with Georgia Tech faculty professors and students. Students are challenged by hands-on, cooperative learning experiences, that will enrich their understanding of STEM areas. Students typically get to take home the projects they create at each meeting.
